The Alpha Parchments: Urim-Thummim Version Dallas James
The Alpha Parchments is a new translation of the first five books of the Holy Bible, also referred to as The Torah. This work represents over 30 years of studying and comparing Bible translations but uses a new approach to making the Bible both very readable and accurate to the original Hebrew at the same time. The King James Version and Youngs Literal Translation have been employed as the "base text". For many this version will retain much of the literary style of those time honored works but all archaic language has been replaced with modern English. More importantly however, this version endeavors to be extremely accurate to the Hebrew definitions that comprise the original text. As a result new discoveries and a greater detail to the Biblical story has now been obtained.[author bio]Dallas James was born in 1950 in Sacramento, California and has lived most of his life in Seattle, Washington. He is a Christian who has spent over thirty years studying and comparing Bible translations.
