**The Dinosaurs: A Fantastic View of a Lost Era** William Stout, Bryon Preiss, William Service
Here are dinosaurs as you've never seen them before. Dinosaurs that are swift, stunning, scary and stupendous, presented in a lavish format with over seventy pages of full color illustrations and dozens in black and white. Using the latest paleontological research, The Dinosaurs presents a scientifically accurate and fantastic new look at the way dinosaurs lived: how they moved, ate, dueled, drank and even made love. From ten ton brontosaurs to thirty foot hadrosaurs, here is a story more fantastic than fantasy itself. Illustrated by William Stout, internationally acclaimed fantasy artist. Narrated by William Service, author of Owl, which Time Magazine called, "one of the most elegant and perceptive pieces of nature writing since T.H. White fell in love with a goshawk." Edited by Byron Preiss, co-author and producer of the bestselling Bantam trade paperback, Dragonworld. With an introduction and scientific commentary by Dr. Peter Dodson, respected paleontologist at the University of Pennsylvania.
