A Century Of Forest And Wildland Watershed Lessons George G. Ice
A Century of Forest and Wildland Watershed Lessons summarizes the findings and lessons learned from key forest and wildland watershed studies of the past century by the grandmasters who were involved in those research efforts. This compilation, edited by George Ice and John Stednick, provides a platform for future progress on forest and wildland watershed research as researchers and practitioners face new issues and technical questions in the 21st century.

Topics include forest and wildland watershed functions, regional differences in forest snow hydrology, rangeland hydrology research, and lessons for watershed research in the future. Separate chapters detail watershed research in the Northeast, Southeast, Mid-South, Central and Upper Midwest, Southwest, Central Rocky Mountains, Northern Rocky Mountains, Northwestern California, and Pacific Northwest.
