Micki Myers

It's Probably Nothing...*: *Or How I Learned to Stop Worrying and Love My Implants Micki Myers **Daring, sly, and unlike any other book you've read, this memoir-in-poems tackles cancer with a bawdy wit guaranteed to make you laugh your wig off.**

WHAT TO DO WHEN CANCER STRIKES? As a vibrant woman in her late thirties, a mother of two, poet, artist, and teacher, Micki Myers decided to confront her diagnosis head on with the sharpest tools in her arsenal: namely, her sense of humor and unbridled poetic license.

The result is a charming, poignant, laugh-out-loud collection that hits all the highs (morphine) and lows (everything else) of being a cancer patient and surviving with your spirit intact (even if your boobs are not).

*It's Probably Nothing . . .** provides the perfect blend of wit and pathos to help you or a loved one achieve much-needed perspective on this frightening journey, whether recently diagnosed or reveling in remission. From losing your hair (even, ahem, *down there*) and gaining two bouncy silicone strangers, to the pitfalls of marijuana therapy and the endless chemo-room muzak "that makes you think / survival might be overrated," Myers reminds you that you're not alone and that it's okay to laugh.
