Once Bitten Stephen Leather

There’s a full moon over Los Angeles, and for police psychologist Jamie Beaverbook that can only mean one thing: the crazies will be out in force. But when he is called into the station for a consult in the middle of the night, even the jaded Beaverbrook can’t believe his ears. The innocent-looking girl in the interview room doesn’t look a day over fifteen, yet the cops say Terry Ferriman was discovered in an alley off of Sunset Boulevard, her mouth smeared with blood as she crouched over the body of a man whose throat was torn out. A basic psych evaluation convinces Beaverbrook of Terry’s sanity and yet he can’t ignore the evidence that seems to point in one extraordinary direction. He tells himself he doesn’t believe in vampires, but after some digging, the good doctor begins to realize that the shadows of L.A. conceal a world where girls like Terry never age and where blood is more valuable than gold. Sharp, witty, and deliciously sinister, *Once Bitten* is a satisfying paranormal thriller from bestselling British author Stephen Leather.
