Perl Black Book, 2nd Edition Steven Holzner
With more than 1,000 examples, Perl Black Book, 2nd Edition is a complete reference to the Perl language ranging from language syntax and idioms to its use in applications such as e-commerce and integration with technologies such as XML and SOAP. Award-winning author Steven Holzner has updated his best-selling first edition to cover all aspects of Perl language version 5.6 including: syntax changes, improved security features, new database modules, and built-in functions. Three new chapters have been added to the second edition covering XML with DOM, SAX, CGI, SOAP, and WML. Plus, three chapters from the first edition have been moved to the included CD-ROM for a grand total of 31 chapters of complete Perl coverage.
