Perception of Space and Motion (Handbook Of Perception And Cognition)

Perception of Space and Motion (Handbook Of Perception And Cognition)
During the past 25 years, the field of space and motion perception has rapidly advanced. Once thought to be distinct perceptual modes, space and motion are now thought to be closely linked. **Perception of Space andMotion** provides a comprehensive review of perception and vision research literature, including new developments in the use of sound and touch in perceiving space and motion. Other topics include the perception of structure from motion, spatial layout,and information obtained in static and dynamic stimulation.

Spatial layout
Structure from motion
Information on static and dynamic stimulation (visual, acoustic, and haptic)
