Neither of them is prepared for the heat they generate.

All Amber Mentor wants is a clean house. She never suspects her idea to teach her sloppy cousin a lesson will lead her to a different time - literally.

Soren Elrickson is on the hunt for food, real food. The delectable treat he finds tangled in a bramble bush won't satisfy his hunger, but she will serve another purpose. His lust ignites in the same instant he understands his colony can't support another mouth to feed. He knows how his helpless find will pay her way - on the flat of her back.

Amber and Soren can't resist each other, but passion doesn't put food on the table in the unforgiving land of 14th-century Greenland. Soren will have to make a decision, one that may not only compromise her heart, but her life.
