The Uncertain Web

Rob Larsen

The Uncertain Web Rob Larsen

What’s the best way to develop for a Web gone wild? That’s easy. Simply scrap the rules you’ve relied on all these years and embrace uncertainty as a core tenet of design. In this practical book, veteran developer Rob Larsen outlines the principles out what he calls The Uncertain Web, and shows you techniques necessary to successfully make the transition.

By combining web standards, progressive enhancement, an iterative approach to design and development, and a desire to question the status quo, your team can create sites and applications that will perform well in a wide range of present and future devices. This guide points the way.

Topics include:

- Navigating thousands of browser/device/OS combinations
- Focusing on optimal, not absolute solutions
- Feature detection, Modernizr, and polyfills
- RWD, mobile first, and progressive enhancement
- UIs that work with multiple user input modes
- Image optimization, SVG, and server-side options
- The horribly complex world of web video
- The Web we want to see in the future

From reader reviews:

Brian Mejia:

Do you have something that you enjoy such as book? The guide lovers usually prefer to choose book like comic, limited story and the biggest one is novel. Now, why not attempting The Uncertain Web that give your pleasure preference will be satisfied by simply reading this book. Reading addiction all over the world can be said as the opportinity for people to know world better then how they react to the world. It can't be mentioned constantly that reading habit only for the geeky man or woman but for all of you who wants to always be success person. So , for all of you who want to start reading through as your good habit, you may pick The Uncertain Web become your own starter.

Robert Lindsey:

Are you kind of busy person, only have 10 or 15 minute in your morning to upgrading your mind proficiency or thinking skill perhaps analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your small amount of time to read it because this time you only find book that need more time to be study. The Uncertain Web can be your answer given it can be read by anyone who have those short spare time problems.

Timothy Bullock:

Is it you who having spare time after that spend it whole day by means of watching television programs or just telling lies on the bed? Do you need something new? This The Uncertain Web can be the response, oh how comes? A fresh book you know. You are so out of date, spending your extra time by reading in this new era is common not a geek activity. So what these publications have than the others?

Dorothy Penland:

Within this era which is the greater individual or who has ability in doing something more are more treasured than other. Do you want to become one among it? It is just simple strategy to have that. What you need to do is just spending your time very little but quite enough to get a look at some books. One of the books in the top record in your reading list is definitely The Uncertain Web. This book that is qualified as The Hungry Slopes can get you closer in turning out to be precious person. By looking upwards and review this reserve you can get many advantages.
