On Interest Rates and Asset Prices in Europe: The Selected Essays of Martin M.G. Fase Martin M. G. Fase
Presenting 25 years of empirical research on interest rates and a variety of asset prices, this text aims to deepen understanding of asset price inflation. It includes an analysis of the measurement of interest rates, with case studies from The Netherlands, Belgium and EMU, and emphasizes statistical measurement and the attempt to understand interest rate behaviour through statistical estimation. The text also includes an examination of historical interest rate development in the long run, both theoretically and empirically. The behaviour of bonds, stocks, and investment in art are analyzed, as well as the factors indispensable for a monetary strategy designed to target inflation.
