Energy Efficiency Reference for Asian Use

Asian Development Bank

Energy Efficiency Reference for Asian Use Asian Development Bank
The primary purpose of this Reference is to provide comprehensive information about the broad range of energy-efficient technologies applicable to end-use efficiency improvement. It provides useful information on practical applications of energy-efficient equipment. The Reference also attempts to analyze the energy savings possible, the materials, equipment and services required, and the costs involved in Asian circumstances. A useful introductory reference document for designers, developers and operators of energy use systems, and for energy supply utilities.
