Encryption Richard J. McLeish
It was just another day at the office, or so Jim Hanson thought—until he picked up a lost flash drive that would change everything. Suddenly, Jim and his family—including his computer engineer daughter Jennifer, his historian son Jason, and retired judge Uncle George—find themselves embroiled in an international conspiracy, one that's set on bleeding the American economy dry and overthrowing the President. Now it's up to Jim and his ragtag group of international allies—at MIT, in Andorra, and in Canada—to put a stop to the nefarious powers behind the plot, even if it means risking their own lives. This high-flying adventure will have you on the edge of your seat through every twist, turn, and barrel-roll, keeping you guessing right to the very last page.
