An Introduction to Pharmaceutical Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine) Jiben Roy
This textbook is written as a unified approach to various topics, ranging from drug discovery to manufacturing, techniques and technology, regulation and marketing. The key theme of the book is pharmaceuticals - what every student of pharmaceutical sciences should know: from the active pharmaceutical ingredients to the preparation of various dosage forms along with the relevant chemistry, this book makes pharmaceuticals relevant to undergraduate students of pharmacy and pharmaceutical sciences.

This book explains how a particular drug was discovered and then converted from lab-scale to manufacturing scale, to the market. It explains the motivation for drug discovery, the reaction chemistry involved, experimental difficulties, various dosage forms and the reasoning behind them, mechanism of action, quality assurance and role of regulatory agencies. After having a course based on this book, the student will be able to understand: 1) the career prospects in the pharmaceutical industry, 2) the need for interdisciplinary teamwork in science, 3) the techniques and technology involved in making pharmaceuticals starting from bulk drugs, and 4) different dosage forms and critical factors in the development of pharmaceutical formulations in relation to the principles of chemistry.

A few blockbuster drugs including atorvastatin, sildanefil, ranitidine, ciprofloxacin, amoxicillin, and the longest serving drugs such as aspirin and paracetamol are discussed in detail. Finally, the book also covers the important current pharmaceutical issues like quality control, safety, counterfeiting and abuse of drugs, and future prospects for pharmaceutical industry.

- Unified approach explaining drug discovery, bulk drug manufacturing, formulation of dosage forms, with pharmacological and therapeutic actions
- Manufacturing processes of representative active pharmaceutical ingredients and their chemistry plus formulation of dosage forms presented in this book are based on actual industrial processes
- Covers many aspects relevant to students of the pharmaceutical sciences or newly employed pharmaceutical researchers/employees. It contains summary information about regulatory agencies of different countries

From reader reviews:

Elaine Rode:

Within other case, little people like to read book An Introduction to Pharmaceutical Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine). You can choose the best book if you appreciate reading a book. Given that we know about how is important the book An Introduction to Pharmaceutical Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine). You can add know-how and of course you can around the world by way of a book. Absolutely right, simply because from book you can know everything! From your country until eventually foreign or abroad you may be known. About simple factor until wonderful thing you may know that. In this era, you can open a book or maybe searching by internet system. It is called e-book. You may use it when you feel weary to go to the library. Let's examine.

Bradley Sparks:

This An Introduction to Pharmaceutical Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine) are usually reliable for you who want to become a successful person, why. The reason why of this An Introduction to Pharmaceutical Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine) can be on the list of great books you must have is definitely giving you more than just simple examining food but feed anyone with information that maybe will shock your previous knowledge. This book is handy, you can bring it just about everywhere and whenever your conditions at e-book and printed ones. Beside that this An Introduction to Pharmaceutical Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine) forcing you to have an enormous of experience for instance rich vocabulary, giving you tryout of critical thinking that could it useful in your day exercise. So , let's have it and enjoy reading.

Sandra Leggett:

Reading a reserve tends to be new life style in this particular era globalization. With examining you can get a lot of information that can give you benefit in your life. Having book everyone in this world can certainly share their idea. Ebooks can also inspire a lot of people. Lots of author can inspire their very own reader with their story or perhaps their experience. Not only the storyplot that share in the publications. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors in this world always try to improve their ability in writing, they also doing some investigation before they write with their book. One of them is this An Introduction to Pharmaceutical Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine).

Gerard Norman:

Your reading 6th sense will not betray you actually, why because this An Introduction to Pharmaceutical

Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine) guide written by well-known writer whose to say well how to make book that may be understand by anyone who else read the book. Written within good manner for you, dripping every ideas and creating skill only for eliminate your own personal hunger then you still question An Introduction to Pharmaceutical Sciences: Production, Chemistry, Techniques and Technology (Woodhead Publishing Series in Biomedicine) as good book not merely by the cover but also by the content. This is one reserve that can break don't evaluate book by its deal with, so do you still needing yet another sixth sense to pick this specific!? Oh come on your reading sixth sense already alerted you so why you have to listening to one more sixth sense.
